

# YANKS WIN IN WORLD ATHLETICS

(By Associated Press)  
**PERSHING STADIUM, France,**  
 (Tuesday), June 25.—American athletes won five firsts, two seconds, one third and one fifth place in the first nine preliminary track events held off yesterday, the first day of the interallied games. Americans won one and lost one bout in boxing.

# LARGEST CRATER IN THE WORLD

(Correspondence Associated Press)  
**Katmai, May 29.**—Here at Katmai, a village not many miles from Mount Lassen, Alaska, greatest volcano, Mrs. F. R. Griggs, with her three children, is spending the summer waiting until a launch comes across the straits from the mainland to take her husband, Professor Griggs of the Ohio State University who is exploring Katmai crater. "The Valley of Ten Thousand Smokes."

Mrs. Griggs ventured this far with her husband, but no farther. She does not expect to hear anything from the professor until he returns late in the summer. Yesterday he and his party sailed from here on a launch for Katmai bay, on the mainland, near the volcano. As the Katmai is wild and uninhabited the launch will be completely out of touch with the outside world unless he sends a messenger back across the straits.

Professor Griggs is heading a national Geographic Society party in the task of exploring the crater. Several years ago he headed a similar party into the Katmai country and returned with the announcement that Katmai crater was the largest in the world.

Several days ago the advance guard of the expedition landed at Katmai and made preparations for the arrival of the rest of the party. Another group landed at Nannek and went into the Katmai territory from the west side. A moving picture man went with Dr. Griggs.

Although Katmai at present is far from any traveled routes and is very inaccessible, Professor Griggs believes that some day it will be known and visited as one of the scenic wonders of the world.

They're having a Victory loan campaign over in England. Takes money to conduct a war. Ain't it the truth.

# PLATINUM MINE IN COLOMBIA

The South American Gold and Platinum company has been formed by Adolph Lewisohn and Sons and Lewisohn Brothers to operate properties in the republic of Colombia, South America. Some 10,000 acres of land as well as fifty miles of river bottom and flats are held by the company, part of the holdings having been acquired from a British company which was already producing platinum and gold. The present company plans an extensive scheme of development, engineers having already blocked out large productive fields. In addition to the Lewisohn holdings of stock in the new company are the Consolidated Goldfields of South Africa, of which the Right Hon. Lord Harris is chairman; the Goldfields American Development company of which Lord Braybourne is managing director, and Johnson, Matthey and company of London.

The company has an authorized capital of £2,000,000 shares of a par value of £1 and with the exception of common shares of stock, all of which has been subscribed to at the underwriting price of \$10 a share, the capital is not to be disposed of by the company for a period of three years. The officers of the company are: President, Adolph Lewisohn; first vice president, Frederick Lewisohn; managing director, F. M. Loper, and treasurer, E. H. Westlake. The directors are: Adolph Lewisohn, Sam A. Lewisohn, E. H. Westlake, James McKim, J. H. Sweeney, Walter Lewisohn, Frederick Lewisohn, J. Thorne, J. H. Sweeney, and A. E. Keene.

Operations conducted last year with only limited facilities for platinum and gold mining, resulted in an output of about \$700,000 worth of the two metals. New machinery has already been ordered for the Colombian fields and it is expected that the output of precious metal next year will be greatly in excess of that heretofore produced. The demand for platinum is said to be world-wide due to the limited and decreasing output from the Russian mines, the life of which, it is asserted, cannot be maintained for a very great number of years.

The stock of the new company which had been greatly oversubscribed is now being traded in on the New York Curb. Applications will be made later to list it on the New York Stock Exchange.

**FORMER NEVADAN IS BACK FROM ARMY WAR SERVICE**

Lieutenant Harold Kind, son of Mrs. Henry Kind of Tonopah, who has been doing service since July, 1917, has returned from overseas. He was mustered out at Camp Dix and will locate at Newark, N. J., where a sister and other relatives reside. Harold is a native of Eureka, Nev., and his many friends will rejoice to learn of his safe arrival home.

# MODESTY OF A REAL WAR HERO

(By Associated Press)  
**COLORADO SPRINGS, June 26.**—Private Jesse Funk of Calhan, Colorado's greatest war hero, is not going into vaudeville. Instead, he intends to rest a while on the Funk ranch and then probably will take a job at the Denver stock yards, because he is first of all a cattleman. Funk divulged this information last week while he was in Colorado Springs with his father and mother, Mr. and Mrs. Martin Funk.

Funk returned from the service last week. General Pershing has numbered Funk among the thirty-two greatest heroes of the war. On his breast Funk wears the congressional medal of honor, and French Croix de Guerre and the distinguished service cross. Since his return, the roads to the Funk ranch have been kept dusty with the visits from congratulatory neighbors who have known Jess since he first rode a horse.

"What I did any man would do who had the chance. I was lucky to get the chance," he says.

Funk got his decoration for saving the life of a wounded lieutenant under fire. The British and Belgian governments also have awarded honors to him but the medals have not arrived.

"I've had a dickens of a time over these medals," Funk said when asked how it felt to be a hero. "It takes a hero to stand up under this welcomest stuff. I'd rather have those machine gunners shooting at me than to face all these welcomes, newspaper men, photographers and such."

Jess is an excellent place for Americans to remain away from.

# FIND FAULTED SEGMENT VEIN ROCHESTER MINES

Under the general direction of Manager Charles D. Kneading, the organization which is being perfected to look after the operating end of the Rochester Nevada Silver Mines company can be credited already with substantial results. C. A. Bennett, who is superintendent of the company, has succeeded in picking up the faulted section of the orebody on the 500-foot level and while the management deprecates laying too much stress on the importance of this development, best stockholders have become unduly excited. It is acknowledged that the picking up of the faulted segment of the vein is "decidedly encouraging." Mr. Bennett is a graduate of the University of Nevada and for some time was with Mr. Kneading in Porcupine, Canada, though more recently he was with Joe Thorne in Central America.

Jay A. Carpenter, consulting engineer.

# Notice of Removal and Change of Principal Office of Business and Principal Office of Tonopah-Shawmuth Mines Co., Ltd.

Notice is hereby given that pursuant to a resolution duly passed by its Board of Directors, authorizing and directing such change and removal of its principal office and principal place of business from Bank & Trust Building in the City of Tonopah, County of Nevada, State of Nevada, to Room 216 in the City of Reno, County of Washoe, State of Nevada, that Tonopah-Shawmuth Mines Company, Ltd., have changed and removed its said principal office and its said principal place of business to the said address in said City of Reno, and that the said change was made on the 21st day of May, 1919, and that at all times after May 21st, 1919, the said principal office and principal place of business of said corporation has been and hereafter is to be located at said address in said City of Reno, and that the name of the resident agent to have charge of such office after such change is L. CHARLES D. KNEADING, President and Director of Tonopah-Shawmuth Mines Company, Ltd.  
 D. C. DUTTON, Bank of Italy Building, Oakland, Calif. Attorney for said corporation.

Date of first publication June 19, 1919.  
 Date of last publication July 12, 1919.  
 1919, 26, 27, 28, 29, 30, 31.

# The Science of Being Useful

Business is the state of being busy.

American business is the entire American people in the business of providing itself with a living.

Only through the usefulness of all can everything be done which must be done, and everyone rewarded who does it.

Swift & Company, with other great American businesses, interprets its mission as more than the mere Science of Making Money.

It realizes the surest way to make money is to prove its usefulness; that the more useful a business is the more successful it must be because it is a greater benefit to mankind.

Today's success of Swift & Company is a measure of the quantity and quality of its usefulness—of the number of people it helps, and the number of ways and the degrees in which it benefits them.

Let us send you a Swift "Dollar". It will interest you. Address Swift & Company, Union Stock Yards, Chicago, Ill.

**Swift & Company, U. S. A.**

THIS SHOWS WHAT BECOMES OF THE AVERAGE DOLLAR RECEIVED BY SWIFT & COMPANY FROM THE SALE OF MEAT AND BY PRODUCTS 85 CENTS IS PAID FOR THE LIVE ANIMAL 12.96 CENTS FOR LABOR EXPENSES AND FREIGHT 2.04 CENTS REMAINS WITH SWIFT & COMPANY AS PROFIT

A SWIFT DOLLAR WHERE IT GOES 12.96% To Stock Raiser

After July 1, the man carrying a suit case will be under suspicion.
